In conjunction with
ICDCS 2024

44th IEEE International Conference on Distributed Computing Systems

The Inaugural Workshop on Tech for Good

Economic and computational advances in distributed systems

July 16, 2024
Jersey City, New Jersey, USA

Important Dates

Abstract registration deadline: March 15, 2024
Paper submission deadline: March 22, 2024
Notification of Acceptance: April 24, 2024
Camera-Ready Submission: May 10, 2024

Join the Movement of Tech4Good
Where Innovation Meets Impacts

Explore the Synergy
Dive into the dynamic fusion of computational science and economics. Delve into the heart of modern distributed systems that are the backbone of our digital economy and societal progress.

Our Mission
To bring to light the unfolding complexities of these systems and their impact on human dynamics. We're calling on scholars, industry mavens, and forward-thinking practitioners to contribute insights that transcend academic boundaries and influence real-world industry practices and policies.

Area of Focus
federated machine learning, blockchain, generative AI, IoT, multi-agent systems, edge computing, networking, crowdsourcing, big-data analytics, and trust in distributed environments.

Contribute to Two Distinguished Tracks
- **Original Research Track**: Showcase new insights in distributed systems — from modeling and algorithms to practical implementations.
- **Research Perspective Track**: Offer a critical evaluation of existing work and propose visionary research directions or address cross-disciplinary challenges.

Call Innovators and Visionaries
Your research could illuminate technical intricacies, economic cohesion, and ethical considerations within distributed systems.

Organizing Committee

Gary Charness, University of California Santa Barbara (UCSB)
Lin William Cong, Cornell University
Jianwei Huang, The Chinese University of Hong Kong (CUHK, Shenzhen)
Bing Luo, Duke Kunshan University
Mingjun Xiao, University of Science and Technology of China (USTC)
Luyao Zhang, Duke Kunshan Universty
