

UK Heat Transfer Conference 2024

UK National Heat Transfer Committee

Monday 9th – Wednesday 11th
September 2024

Alan Walters Building
University of Birmingham
Edgbaston, B15 2SB

The 18th UK National Heat Transfer Conference is the UK premier forum for the local and international heat transfer community to meet, disseminate their work and discuss recent advances in the heat transfer field.

Themes include: Single phase heat transfer, boiling, evaporation, and condensation, gas turbines, engines and combustion, heat transfer at micro and nano scale, sustainable energy (fuel cells, solar energy and energy storage), and many more.

Join us for keynote lectures delivered by eminent figures from academia and industry, alongside special sessions run by invited senior scientists.
