

1st International BIG Academy Conference on Multidisciplinary Research and Innovation 2025 (IBACMRI 2025)

Dates

26th April &
27th April 2025

Mode

Virtual
Conference

Organized By

BIG Academy,
Riyadh, KSA

Theme:

**Advancing Sustainability and ESG (Environmental, Social and Governance):
Transforming International Dynamics in the Asia Region**

The 1st International BIG Academy Conference on Multidisciplinary Research and Innovation 2025 (IBACMRI 2025) aims to emphasize the transformative role of sustainability and Environmental, Social, and Governance (ESG) principles in addressing today's global challenges. The conference seeks to provide a platform for researchers, practitioners, and thought leaders to engage in meaningful dialogue and collaboration, exploring innovative solutions that integrate ESG practices across various disciplines. With the world facing interconnected crises in climate, technology, and public policy, the need for multidisciplinary approaches has never been more critical.

The conference seeks to emphasize the strategic significance of the Asia region, highlighting its role in global sustainability initiatives, including energy transition, smart cities, and fostering inclusive economic growth. It will bring together diverse perspectives to foster research and innovation in emerging areas such as artificial intelligence, blockchain, and green technology, aligning with global sustainability goals. Furthermore, the event will promote ethical practices, resilience, and impactful policymaking, establishing a knowledge-sharing platform for international collaboration. IBACMRI 2025 aspires to inspire integrated solutions that not only address regional priorities but also resonate on a global scale, advancing a sustainable and inclusive future.

Subthemes:

1. Governance and Policy Frameworks

- Corporate social responsibility (CSR) in the Asia region
- Government policies supporting ESG initiatives
- Public-private partnerships for sustainable development

2. Technological Innovations

- Role of AI, IoT, and blockchain in sustainability
- Smart cities and sustainable urban development
- Green technology for resource management
- Energy transition and renewable energy initiatives in Asia
